

Integrating Zoom and Yuja for Automatic Import

Step 1: Enable

1. Click “Settings” from your course navigation menu. 2. Then, click the “Navigation” tab and scroll through the options until you find “Yuja.” 3. Click the 3 dots at the end of the “Yuja” bar and select “+Enable.” Then, click the “Save” button.

Step 2: Account Settings

1. Open “Yuja Media” from the navigation menu. 2. Click the “Avatar” icon and then “Account Settings”. 3. Click the “Integration” icon, 4. enter your Zoom login, then click on the “Send Verification Code” button. Wait for an email letting you know your verification code.

Step 3: Enable Automatic Import

1. After copy and pasting the verification code from your email into the “Code Verification” field, 2. check the “Enable Automatic Import” box, and 3. then, click on the “Verify and Save” button. You should see a green confirmation message indicating the process has completed.
